1902 Wright Glider
AIRCRAFT SPECIFICATIONS
N-Number: N1902F S/N: 001
\$ 200,000

It's December and time to head to the Outer Banks to invent the airplane! Here's your opportunity to own the machine that started it all. Our reproduction is expertly crafted to be an exact replica of the 1902 Wright Glider that established the patent for 3-axis control on a heavier-than-air flying machine. Room for one light pilot in prone position. All you need are soft sands and steady winds around 20 kts or better. Proceeds benefit the Wright Brothers Society.

Airframe: 6 Hours
Engine: 0 Hours Since New

Avionics
VFR Only
Wind Direction String Indicator

Features

Interior
Solid Ash Hip Cradle

Exterior
Spruce Struts
Egyptian Cotton Wings

Details
Built by Rick Young of Chesterfield, Virginia, the foremost authority on the construction and design of Wright aircraft of 1900-1911.

Located at KFCI ([KFCI Details](#))
