

1979 Cessna 172N Skyhawk II
AIRCRAFT SPECIFICATIONS
N-Number: N6694E S/N: 17272050

It is rare to find a truly pristine 172N like this one-owner gem. Owned and flown since NEW by a retired Air Force command pilot, this Skyhawk II is in extraordinary condition. Always hangared, never damaged. Super nice condition. Original Cessna radios and old-school IFR panel - no GPS or Autopilot - but flies square and steady and it is ready! There just are not many like this one!

Airframe: 4,900 Hours
Engine: 850 Hours SMOH
PROP: 350 HOURS SPOH
