1967 Piper PA-28R-180 Arrow
AIRCRAFT SPECIFICATIONS
N-Number: N3711 S/N: 28R-30015

Owned and flown by A&P/Avionics Shop as a business shuttle, this Arrow is solid mechanically with a full IFR panel that works right. The King KLN94 GPS couples with the the Autocontrol IIIB for easy cross-country flights. Could use new paint, but if "how it works" is more important than "how it looks", this as a great plane to use for commercial training, business travel or time-building. Economical and speedy!

Airframe: 5,245 Hours
Engine: 1,200 Hours SMOH
